Profile

Frontend engineer specializing in **React.js**, **Next.js**, and **modern JavaScript (ES6+)**. Experienced in building **responsive, scalable, and high-performance applications**, with a focus on UI implementation, accessibility, and cross-browser compatibility. Proficient in **Redux Toolkit**, TypeScript, HTML5, CSS3, and design-driven development. Enthusiastic about turning design mockups into pixel-perfect interfaces, collaborating across teams, and improving performance for better user experience.

Education

HCMC University of Technology and Education, Software Engineering

Sept 2021 – May 2025

- GPA: 3.4/4.0

Languages

- English — TOEIC 630 (Intermediate proficiency)

Skills

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frontend: React.js, Next.js, Redux Toolkit, TailwindCSS, Ant Design, shadcn/ui, Responsive/Adaptive Design, Cross-browser Compatibility, *Basic React Native*

Backend & APIs: Node.js, Express.js, NestJS, REST APIs, WebSocket

Databases: MongoDB, MySQL, MSSQL

Tools/Platforms: Git/GitHub, Docker, AWS (S3, Amplify), MicroCMS, Figma

Experience

Software Engineer, KIT System Solutions Vietnam

June 2024 – Present

- Developed and maintained **web applications with React.js and Next.js**, ensuring performance and scalability.
- Built **pixel-perfect UIs** from design mockups and improved consistency across platforms.
- Enhanced application speed through SEO practices, bundle optimization, and performance tuning.
- Worked closely with backend engineers to integrate APIs and ensure smooth data flow.
- Applied state management and modular component design for maintainable frontend codebases.
- **Project: KIT Website** (kit-group.net)
 - Stack: Next.js, TypeScript, TailwindCSS, microCMS.
 - Implemented responsive UI, CMS integration, and SEO/performance improvements.
- **Project: Furusato Tax Service** (furusato-with.jp)
 - Platform connecting local governments and businesses through contribution programs.
 - Built frontend with Next.js and Redux Toolkit; optimized SEO and UI responsiveness.
 - Backend with Express.js, NestJS; deployed on AWS.
- **Project: STLOCAL** (stlocal.net)
 - Service platform linking local stores with customers.
 - Contributed to UI development using **HTML, CSS, and JavaScript**, ensuring responsive and accessible design.

Projects

Bus Ticket Booking System

03/2024 - 06/2024

- Designed and built a mobile + backend system for long-distance bus booking and management.
- **Role:** Fullstack Developer — React Native (mobile UI), Express.js (APIs), MongoDB (database).
- Implemented authentication, CRUD APIs, and responsive mobile UIs for multiple user roles.

E-commerce Platform

07/2023 - 11/2023

- Built a shopping platform supporting product catalog, checkout, and inventory management.
- **Role:** Fullstack Developer — React.js (frontend UI), Express.js (backend APIs), MongoDB/Mongoose (database).
- Developed REST APIs for authentication, product workflows, and order processing.
- Created responsive UIs aligned with Figma-based mockups.

Certificates and Awards

Third Prize – Provincial Round, Vietnam Student Olympiad

March 2021

Recognized for strong problem-solving and academic excellence.

Third Prize – Vietnam Science and Engineering Fair

March 2021

Awarded for developing a web platform connecting local farmers with buyers to enhance market access.
